

NV-POLECELLCAM

Cellular Camera Systems

PM-M12CELL Celcam

Features

- Uses the cellular network to transfer camera images to remote PC's
- Local WIFI for easy set-up and configuration
- On-board DVR with up to 32GB storage (2 weeks storage)
- NEMA 4 rated weatherproof lockable enclosure
- Wall or pole mountable

Unique Day/Night camera technology without moving parts guarantees extreme light sensitivity and ensures long-term reliability. Whether in broad daylight or at night, security cameras need to be capable of working around the clock and delivering high-resolution images. This is the only way to catch criminals. MOBOTIX is the only camera that switches between sensors purely electronically, without any moving parts. This increases the life span of the product and minimizes maintenance.

Tri-pod Surveillance Camera System

Features

- Superfast quick deployment weatherproof camera tri-pod system
- No power required, completely wireless
- Built in monitor for quick alignment
- Tri-pod extendable to 9 feet with ground leveling adjustable leg
